PROFESSIONAL SUMMARY

Aspiring Software Engineer with strong foundations in Java, Data Structures and Algorithms, and Full-Stack MERN Development. Experienced in building secure, real-time web applications using React.js, Node.js, Express.js, MongoDB, Socket.io, JWT authentication, and REST APIs, along with AI-powered features via TensorFlow.js and the Google Gemini API. Built and deployed VoteSecure, an AI-powered online voting system, and SkillBridge, a real-time peer-learning platform, while solving 600+ LeetCode and 550+ CodeChef problems. Passionate about developing scalable software and continuously learning modern technologies.

EDUCATION

ABES Engineering College

B.Tech. in Computer Science & Engineering | Percentage: 80%

2023 – 2027

Ghaziabad, India

Jawahar Navodaya Vidyalaya, Rohtak

12th | CBSE | Percentage: 84%

2022

Rohtak, Haryana

Jawahar Navodaya Vidyalaya, Rohtak

10th | CBSE | Percentage: 80.20%

2020

Rohtak, Haryana

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C++, C

Frontend: ReactJS, HTML5, CSS3, Tailwind CSS, CSS Flexbox

Backend: NodeJS, ExpressJS, Socket.io, REST APIs

Database: MongoDB, Mongoose

Authentication And Security: JWT Authentication, OTP Verification, bcrypt.js

Machine Learning / AI: TensorFlow.js, face-api.js (Face Recognition), Google Gemini API

Tools & Platforms: Git, GitHub, VS Code, MongoDB Atlas, Render, Vercel, Postman

PROJECTS

VoteSecure | React.js, Node.js, Express.js, MongoDB, JWT, TensorFlow.js, face-api.js, Tailwind CSS

- Built a secure **MERN-based online voting platform with AI-powered face recognition and email OTP verification.**
- Developed REST APIs with JWT authentication, bcrypt password hashing, and role-based authorization.
- Implemented duplicate-vote prevention, protected routes, and Admin/Voter dashboards.
- Deployed the application on Vercel, Render, and MongoDB Atlas following production deployment practices.

SkillBridge | React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Google Gemini API, Tailwind CSS

- Built a full-stack **MERN peer-learning platform** that matches students posting doubts with peers in real time based on overlapping skill tags.
- Engineered a StackOverflow-style **reputation and badge system** with Socket.io-powered live notifications and a real-time typing indicator on answers.
- Integrated the **Google Gemini API** to generate AI-powered starter hints for stuck students, caching responses in MongoDB to cut redundant API calls.

ACHIEVEMENTS & EXTRA CURRICULAR ACTIVITIES

- Solved **600+ DSA problems on LeetCode** and **550+ DSA problems on CodeChef** and **4-Star rating on HackerRank.**
- Certified in **Full Stack Web Development (Udemy)**, **AWS Academy Cloud Foundations**, **Generative AI Essentials (TCS iON)** and **Prompt Engineering (AWS and Microsoft GitHub Copilot).**
- Participated in the **GUVI × HCL GenAI** and **Full Stack Development Workshop.**
- **Represented at the National Level in Kabaddi; actively involved in sports, clubs, and college events..**
